Contents Vol. 136

Sedimentary documentation of the break-up of Rodinia, Offerdal Nappe, Swedish Caledonides
P. Plink-Björklund, L. Björklund and K.-J. Loorents 1
The Wadi Mubarak belt, Eastern Desert of Egypt: a Neoproterozoic conjugate shear system in the Arabian–Nubian Shield
A. Shalaby, K. Stüwe, F. Makroum, H. Fritz, T. Kebede and U. Klötzli 27
Neoproterozoic bimodal magmatism in the Cathaysia Block of South China and its tectonic significance
W.-X. Li, X.-H. Li and Z.-X. Li 51
Paleoproterozoic arc and ophiolitic rocks on the northwest-margin of the Trans-Hudson Orogen, Saskatchewan, Canada: their contribution to a revised tectonic framework for the orogen
R.O. Maxeiner, D. Corrigan, C.T. Harper, D.G. MacDougall and K. Ansdell 67

U–Pb zircon geochronology and geochemistry of Neoproterozoic volcanic rocks in the Tarim Block of northwest China: implications for the breakup of Rodinia supercontinent and Neoproterozoic glaciations
B. Xu, P. Jian, H. Zheng, H. Zou, L. Zhang and D. Liu 107
Preservation of biosignatures in metaglassy volcanic rocks from the Jormua ophiolite complex, Finland
H. Furnes, N.R. Banerjee, K. Muehlenbachs and A. Kontinen 125
Oblique collision and evolution of large-scale transcurrent shear zones in the Kaoko belt, NW Namibia
J. Konopásek, S. Kröner, S.L. Kitt, C.W. Passchier and A. Kröner 139
Sm–Nd isotope geochemistry of metamorphic volcano-sedimentary successions in the São Gabriel Block, southernmost Brazil: evidence for the existence of juvenile Neoproterozoic oceanic crust to the east of the Rio de la Plata craton
K. Saalmann, L.A. Hartmann, M.V.D. Remus, E. Koester and R.V. Conceição 159
Late Archean to Paleoproterozoic evolution of the North China Craton: key issues revisited
G. Zhao, M. Sun, S.A. Wilde and L. Sanzhong 177

The neoproterozoic Mantiqueira Province and its African connections: a zircon-based U–Pb geochronologic subdivision for the Brasiliano/Pan-African systems of orogens
L.C. da Silva, N.J. McNaughton, R. Armstrong, L.A. Hartmann and I.R. Fletcher 203
The accretionary Svecofennian orogen—insight from the BABEL profiles
A. Korja and P. Heikkinen 241
Isotopic dating of Meso- and Neoproterozoic mafic magmatism in the southern Tobacco Root Mountains, Southwestern Montana
S.S. Harlan, W.R. Premo, D. Unruh and J.W. Geissman 269
Taxonomic review of some Ediacaran acritarchs from the Siberian Platform
M. Moczydłowska 283

doi:10.1016/S0301-9268(05)00013-6

The Eglab massif in the West African Craton (Algeria), an original segment of the Eburnean orogenic belt: petrology, geochemistry and geochronology
J.-J. Peucat, R. Capdevila, A. Drareni, Y. Mahdjoub and M. Kahoui 309
Multistage magmatic and metamorphic evolution in the Southern Siberian Craton: Archean and Palaeoproterozoic zircon ages revealed by SHRIMP and TIMS
U. Poller, D. Gladkochub, T. Donskaya, A. Mazukabzov, E. Sklyarov and W. Todt 353
